NJCAA/REGION IX VOLLEYBALL STATISTICS DEFINITIONS/FORMULAS

A. **ATTACK**: An attack attempt is charged to a player any time the player attempts to hit the ball over the net into the opponent's court. The ball may be spiked, set, tipped, or hit as an overhead contact. The exceptions are:

1. An ATTEMPT is not charged on a ball played over the net on serve reception that is kept in play by the opposing team.

2. An ATTEMPT is not charged on a free ball played over the net when in the opinion of the statistical; the free ball is passed only to keep the ball in play.

3. An ATTEMPT is not charged to a player if, in the opinion of the statistician, the set is bad and the player plays the ball over the net only to keep the ball in play.

4. An ATTEMPT is not charged to a player if the player passes the ball over the net only to keep it in play.

Philosophy: Any ball that is played over the net in an attempt to score a point or side-out should be considered an attack. Any ball played over the net simply to keep the ball alive should not be considered an ATTACK ATTEMPT.

B. A **KILL** is awarded to a player any time an attack is unreturnable by the opposition or any time the attack leads directly to a blocking error by the opposition. A kill leads directly to either a point or a side-out. When a player is awarded a kill, they are also awarded an attack attempt.

C. An **ATTACK ERROR** is charged to a player whenever an attack is:

1. Hit out of bounds
2. Hit into the net leading to a four hit violation
3. Blocked down by the opposition to the same side as the attacker, and cannot be kept in play

In addition, an attack error is charged if the hitter:

1. Goes into the net
2. Makes a center line violation
3. Is called for an illegal contact on the attack
4. Hits the ball into the antenna

When a player is awarded an attack error, they are also awarded an attack attempt.

D. A **"0 HIT"** is any attack attempt that is kept in play by the opposition. Total attempts equal the sum of kills, errors and 0 hits.

E. An **ASSIST** is given whenever a player passes or sets the ball to a teammate who attacks the ball for a kill.
F. A **SERVICE ACE** is a serve which results directly in a point.

G. **Points served are awarded to the server and rally points are awarded to the team.**

H. A **DIG** is awarded to the player whenever a player passes the ball which has been attacked by the opposition. DIGS are only given when players receive an attacked ball and it is kept in play.

I. A **STUFF BLOCK** results when your team receives a point or side-out.
   1. A **BLOCK SOLO** (BS) is awarded to a player whenever that player blocks the ball into the opposition's court leading directly to a point or a side-out.
   2. A **BLOCK ASSIST** (BA) is awarded whenever 2 or 3 players block the ball into the opponent's court for a point or side-out. EACH player receives a BLOCK ASSIST even if only one player actually blocks the ball.
   3. A **BLOCKING ERROR** (BE) occurs whenever an official calls a blocker for a violation, such as a blocker goes into the net, a blocker is called for a line violation, a back row player is called for blocking the ball, and a blocker is called for reaching over the net.

J. A **GAME** is equal to one 30-rally point period or winning by 2 points, whichever occurs first. Deciding game rally to 15 or winning by 2 points, whichever occurs first.

**FORMULAS**

1. **Hitting Efficiency** = \[
\frac{\text{Total kills (+)} - \text{Total errors (-)}}{\text{Total Attempts}}
\]

2. **Service Aces per game** = \[
\frac{\text{Total # of Aces}}{\text{Total # of Games Played}}
\]

3. **Digs per game** = \[
